Handbook of Green Chemistry, Green Catalysis, Biocatalysis: Volume 3

Handbook of Green Chemistry, Green Catalysis, Biocatalysis: Volume 3

The shift towards being as environmentally-friendly as possible has resulted in the need for this important volume on the topic of biocatalysis. Edited by the father and pioneer of Green Chemistry, Professor Paul Anastas, and by the renowned chemist, Professor Robert Crabtree, this volume covers many different aspects, from industrial applications to the latest research straight from the laboratory. It explains the fundamentals and makes use of everyday examples to elucidate this vitally important field. An essential collection for anyone wishing to gain an understanding of the world of green chemistry, as well as for chemists, environmental agencies and chemical engineers.

The *Handbook of Green Chemistry* comprises of 9 volumes in total, split into 3 subject-specific sets. The three sets are available individually. All 9 volumes are available individually, too.

Set I: Green Catalysis

- Volume 1: Homogeneous Catalysis
- Volume 2: Heterogeneous Catalysis
- Volume 3: Biocatalysis

Set II: Green Solvents

- Volume 4: Supercritical Solvents
- Volume 5: Reactions in Water
- Volume 6: Ionic Liquids

Set III: Green Processes

- Volume 7: Green Synthesis
- Volume 8: Green Nanoscience
- Volume 9: Designing Safer Chemicals

The *Handbook of Green Chemistry* is also available as **Online Edition**.

Podcasts

Listen to two podcasts in which Professor Paul Anastas and Journals Editor Paul Trevorrow discuss the origin and expansion of Green Chemistry and give an overview of *The Handbook of Green Chemistry*.

From reader reviews:

Anna Harlow:

This book untitled Handbook of Green Chemistry, Green Catalysis, Biocatalysis: Volume 3 to be one of several books in which best seller in this year, that is because when you read this e-book you can get a lot of benefit into it. You will easily to buy this book in the book retail store or you can order it via online. The publisher on this book sells the e-book too. It makes you more easily to read this book, as you can read this book in your Smartphone. So there is no reason for you to past this e-book from your list.

Mary McCollum:

Reading a publication can be one of a lot of action that everyone in the world adores. Do you like reading book so. There are a lot of reasons why people love it. First reading a publication will give you a lot of new facts. When you read a e-book you will get new information simply because book is one of a number of ways to share the information or their idea. Second, reading a book will make an individual more imaginative. When you reading a book especially fictional works book the author will bring that you imagine the story how the figures do it anything. Third, you could share your knowledge to other folks. When you read this Handbook of Green Chemistry, Green Catalysis, Biocatalysis: Volume 3, you can tells your family, friends and soon about yours book. Your knowledge can inspire others, make them reading a publication.

Henry Stehle:

Playing with family in a very park, coming to see the ocean world or hanging out with pals is thing that usually you might have done when you have spare time, after that why you don't try point that really opposite from that. One activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you have been ride on and with addition of information. Even you love Handbook of Green Chemistry, Green Catalysis, Biocatalysis: Volume 3, it is possible to enjoy both. It is very good combination right, you still wish to miss it? What kind of hang type is it? Oh occur its mind hangout folks. What? Still don't buy it, oh come on its called reading friends.

Jerry Brower:

Is it a person who having spare time after that spend it whole day by watching television programs or just telling lies on the bed? Do you need something totally new? This Handbook of Green Chemistry, Green Catalysis, Biocatalysis: Volume 3 can be the respond to, oh how comes? It's a book you know. You are and so out of date, spending your spare time by reading in this brand new era is common not a nerd activity. So what these publications have than the others?
