Surveys of Land, Buildings and Utility Services at Scales of 1:500 and Larger: Client Specification Guidelines Mapping and positioning panel

Millions of pounds can be wasted by inadequate briefing at the survey stage. This practical working document helps property professionals to avoid these hazards, offering a standard method of defining large-scale surveys for the detailed design of construction and development projects. Its flexible approach allows "tailor made" specifications to be created which meet exact survey requirements. A user guide is included alongside the specification, providing information and guidance on each clause. A floppy disk containing the specification is also included.
