The Fear of Population Decline

Michael S. Teitelbaum

The Fear of Population Decline Michael S. Teitelbaum

The Fear of Population Decline provides an elaborated discussion on the concept of population decline. The book is comprised of seven chapters that show the extent to which demographic developments form a part of a much longer continuum of discussion and behavior.

In the opening chapter, the book discusses the nature of population decline, and then proceeds to demonstrate the complex ways in which fears of population decline emerged in the period 1870-1945. Chapter 4 details the advancement in the period 1945-1965, while Chapters 5 and 6 discuss the phenomenon of baby bust and policy responses to it. The last chapter talks about the nature and possible dangers of population decline.

The text will be of great interest to readers who are concerned with the implication of population decline for the society as a whole.
