Ecosistema Web (Italian Edition) Francesco Tassone

Il mondo del web è un ecosistema immenso, fatto di tanti ecosistemi più piccoli, un po' come una scatola cinese o meglio ancora, come il frattale di una felce, in cui ogni singola foglia, trova il suo omologo in una parte più piccola. Nello stesso tempo però, non funziona esattamente come un frattale, ma segue delle logiche diverse, che a volte possono apparire molto complesse ed inesplicabili. Eppure, come tutti gli ecosistemi, è governato da leggi inesorabili e precise, che ne condizionano il funzionamento e lo rendono particolarmente interessante. Oltre che molto potente sul piano delle immense potenzialità relazionali che possono essere attivate. Questo documento, assolutamente innovativo nel suo genere, affronta con semplicità e rigore questa tematica, introducendo il lettore ad un paradigma completamente nuovo, oltre che estremamente funzionale. Il nostro augurio, è che colui che si affaccia a questa lettura, possa trovare la risposta alle sue sopite domande e in tal modo, rassicurarsi circa le sue intuizioni, che magari, da tempo, lo chiamano all'azione senza mai riuscirci. Oltre a chiarire questi aspetti, il testo introduce un insolito concetto di start up, e fornisce un esempio concreto per sviluppare idee progettuali di successo. Il lettore, si trova così a scoprire, che quella tra lui e il web, è una relazione interessante, stimolante, sana e soprattutto straordinariamente vitale, sia come stimolo all'apprendimento, che soprattutto, come educazione alla condivisione.
