Brain Imaging: Case Review Series Laurie A. Loevner

This volume in the best-selling "Case Review" series uses hundreds of case studies to challenge your knowledge of a full range of topics in brain imaging. With 170 brand new cases, new coverage of MRA, CTA, MR spectroscopy and multi-detectors and over 600 brilliant images, this is your ideal concise, economical, and user-friendly tool for self assessment in this specialty!

- Utilizes case studies organized into "Opening Round," "Fair Game," and "Challenge" sections, so you can test yourself at varying difficulty levels.
- Provides at-a-glance review/self-testing of brain imaging cases ideal for preparing for the boards in brain imaging, the CAQ exam for neuroradiology or for the general radiologist ready for re-certification.
- Mimics the official exam formats and daily practice environment by giving you cases/images as unknowns with three to four questions; then, on the flip side of the page, diagnosis, answers to the questions, additional commentary, and references to the corresponding volume in Elsevier's popular Requisites Series.
- Includes 600 state of the art images to effectively compliment and support the text and provide a clear picture of what you can expect, both in test-taking and in practice.
- Uses randomly organized cases so you can test yourself without the aid of logical organization by anatomy or disease type.
- Includes 170 new cases and over 50 new diagnoses so you can keep pace with the latest developments.
- Includes a greater emphasis on differential diagnosis.
- Adds coverage of MRA, CTA, MR spectroscopy and multi-detectors to keep you completely current.
- Provides all new images for existing entities.
- Adds cutting-edge coverage of neuro-imaging including spectroscopy, CTA, MRA, Functional imaging, tractography, perfusion and diffusion.

So , how do you think about this guide?

Betty Norsworthy:

Information is provisions for individuals to get better life, information presently can get by anyone on everywhere. The information can be a understanding or any news even restricted. What people must be consider if those information which is inside the former life are challenging to be find than now's taking seriously which one is appropriate to believe or which one typically the resource are convinced. If you get the unstable resource then you obtain it as your main information you will have huge disadvantage for you. All of those possibilities will not happen within you if you take Brain Imaging: Case Review Series as the daily resource information.

Susan Granger:

Do you like reading a publication? Confuse to looking for your preferred book? Or your book was rare? Why so many problem for the book? But almost any people feel that they enjoy regarding reading. Some people likes reading through, not only science book but additionally novel and Brain Imaging: Case Review Series or perhaps others sources were given information for you. After you know how the truly great a book, you feel would like to read more and more. Science reserve was created for teacher or students especially. Those textbooks are helping them to put their knowledge. In different case, beside science publication, any other book likes Brain Imaging: Case Review Series to make your spare time considerably more colorful. Many types of book like this one.

Carlos Tabor:

As a pupil exactly feel bored to be able to reading. If their teacher asked them to go to the library as well as to make summary for some publication, they are complained. Just minor students that has reading's heart or real their leisure activity. They just do what the educator want, like asked to go to the library. They go to right now there but nothing reading critically. Any students feel that reading is not important, boring and also can't see colorful pics on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this era, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. So , this Brain Imaging: Case Review Series can make you experience more interested to read.
