Limited Wants, Unlimited Means: A Reader On Hunter-Gatherer Economics And The Environment

John Gowdy

For roughly 99% of their existence on earth, Homo sapiens lived as small bands of hunter-gatherers in societies that appear to have solved problems of production, distribution, social equity, and environmental sustainability that our own culture seems incapable of addressing. *Limited Wants, Unlimited Means* examines the hunter-gatherer society and lifestyle, providing a brief introduction to the rich literature on non-agricultural societies. It examines the economics of traditional societies and presents a multifaceted investigation of how such societies function and what that can teach us in our own quest for sustainability and equality.
