Drawing upon three decades of working, traveling, and living in Central America's remote and dangerous landscapes, this memoir chronicles a journalist's fascinating experiences with the people, politics, archaeology, and species of the rainforest, the cradle of Mayan civilization. The intense beauty of the forest, the fantastic locales, the ancient ruins, and the horrific violence of the jungle are brought to life through clear and compelling language. The author plays witness to archaeological discoveries, the transformation of the Lacandon people, the Zapatista indigenous uprising in Mexico, and increased drug trafficking, and she assists in the uncovering of a war crime. Great changes of the region, from a time when the jungle had virtually no roads and no visitors to the vacationers and adventure travelers who now arrive daily, are revealed in this unique exploration of the adaptation and resolve of a people.
