The Deeds of Pope Innocent III

The Deeds of Pope Innocent III

"The Deeds of Pope Innocent II", composed before 1210 by an anonymous member of the papal curia, provides a unique window into the activities, policies and strategies of the papacy and the curia during one of the most important popes in history. This partial biography covering the first ten years of Innocent's pontificate was written by a cleric close to the pope and familiar with the curia. The translator, James M. Powell, suggests that it was written by the canonist and later cardinal Peter of Benevento. Peter had a profound knowledge of southern Italy and closely followed Innocent's efforts to unify the churches of the East and West and to promote the crusade. Though the discussion of Roman politics found in these pages is one of the most valuable sources available, the work has long been neglected and only recently has begun to receive the attention it deserves. Never before has it been translated into any modern language. It is a treasure of contemporary letters, arranged by the author to reinforce his interpretation of the events discussed. The results are new insights that will inspire both students and scholars. The translator provides an introduction and adds numerous explanatory notes throughout the book. Those who seek a fuller understanding of the development of the papacy during a period of great change in medieval religious history should find this work valuable.
