We stand at the threshold of a revolutionary and empowering new vision of the world. The discoveries of leading-edge science and the insights of spirituality are converging to reveal that the CosMos and all that we term reality is wholly integrated, and that at its most fundamental level, it is a field of information. This is the elemental cosmic mind from which everything emanates, is manifested, and to which all ultimately returns. Research is also demonstrating what the mystics of all traditions have discerned: that we have the innate ability to envision, understand, and experience the CosMos at levels far beyond the limitations of our human persona. CosMos is co-authored by two explorers who combine almost a century of seeking to understand not only how the world is as it is, but why. Philosopher Ervin Laszlo, Ph.D., and healer and scientist Jude Currivan, Ph.D., offer a revisioned view of the world that is no longer fragmented, but is at last, whole. There is a perception of a meaningful and co-creative world that is exquisitely tuned to be “as simple as it can be” for consciousness to explore itself. In these momentous times, the vision shared in Cosmos invites us to open our hearts and minds to re-member who we really are and to take our places as conscious co-creators of our realities and of our evolving cosmic destiny.
