Women's International and Comparative Human Rights Susan W. Tiefenbrun

Women's International and Comparative Human Rights is a collection of materials that provide information and insight into the complex issues of international human rights and the laws and customs that specifically impact women in countries all over the world. These materials include: excerpted cases, statutes, treaties, newspaper articles, law review articles, books, U.N. treaty organs and committee reports, and cases emanating from regional and international tribunals. By applying an interdisciplinary approach, Professor Tiefenbrun looks into the history of the global human rights movement, the structure of the United Nations and its human rights system, and the relationship of international law to the development of international human rights laws that relate specifically to women. The book examines women's civil, political, social, economic, and cultural rights, women's human rights in armed conflict; women's fundamental right to manifest their religion; their right to be free from slavery and sex trafficking; the rights of women with disabilities; and the right of women to be free from institutionalized female infanticide, sex selection abortion, child soldiering, sexual violence and torture. The Appendix contains the major international human rights treaties protecting women and children. This book is a useful and convenient book for courses in international human rights, women and the law, and women's international human rights.

"Tiefenbrun (Thomas Jefferson School of Law) successfully guides readers through the volume and presents a very complex subject in a clear manner. This important work argues that the human rights needs of women are not and should not be assumed to be identical to those of men. The author not only provides evidence but also places it in theoretical frameworks, such as feminist theory. Case study comparisons of laws in different countries meld the facts and theories and act as helpful examples. ...This book is an especially useful introduction to the limits of current international and domestic human rights laws for the protection of women." — *CHOICE Magazine*, L. E. Lyons, Northwestern University
