Designing with Light and Shadow

Lighting Planners Associates

Designing with Light and Shadow Lighting Planners Associates

In the past the focus of urban illumination has been purely functional. Designing with Light and Shadow , however, is a treatise on the work of Kaoru Mende + Lighting Planners Associates, a Japanese firm, which purposely creates spaces to leave a lasting impression through the use. This fascinating full colour book explores the use of light from many different aspects: from the sensual through to the pragmatic sequencing of place and time not forgetting, of course, its relationship to the natural environment. This is an unusual book, full of practical and innovative ideas.
