## **Bone Marrow and Bone Tissue: Color Atlas of Clinical Histopathology** Rolf Burkhardt

The intention to depict the general and special histopathology of should be no obstade to publication. This conviction determined bone marrow and bone from a purely dinical point of view must publisherandauthornot to delay any further. Unusualefforts have arouse critical discussion even in the absence of inherent shortco been demanded by this large-scale publication and thanks are due mings. It would be pointless to evade it by disdaiming the inter to Dr. Götze and all supporters who have spent energy and expert pretation of histological findings. The sooner they are comple knowledge on this difficult task. mented by histological controls, the better will be the result of The preparation gained considerably by the assistance, encour firmly placing the diagnostic fundamentals for medical activity in agement and criticism of numerous associates and colleagues, but this large field of dinical pathology. Inconsistencies in haematolo especially ofProfessor Dr. H. Schwiegk and Professor Dr. W. Stich.
