**Reconnecting Markets: Innovative Global Practices in Connecting Small-Scale Producers with Dynamic Food Markets (Gower Sustainable Food Chains Series)** Estelle Biénabe, Julio Berdegué, John Belt

The rapid changes taking place in the structure and governance of national and regional agri-food markets in developing countries seriously affect the ability of agriculture, especially small-scale agriculture, to contribute to economic growth and sustainable development. Reconnecting Markets is the second volume of case examples from the Regoverning Markets programme (2005-2008). It focuses on the keys to inclusion of small-scale farmers and rural SMEs into dynamic national and regional markets. The cases document specific arrangements that appear to have played a positive role in supporting greater inclusion, such as public policies and business initiatives, collective action by farmers and support from development agencies.
