The fascinating story of a lost city and an unprecedented civilization

Almost a thousand years ago, a Native American city flourished along the Mississippi River near what is now St. Louis. Cahokia was a thriving metropolis at its height with a population of twenty thousand, a sprawling central plaza, and scores of spectacular earthen mounds. The city gave rise to a new culture that spread across the plains; yet by 1400 it had been abandoned, leaving only the giant mounds as monuments and traces of its influence in tribes we know today.

In *Cahokia*, anthropologist Timothy R. Pauketat reveals the story of the city and its people as uncovered by the dramatic digs of American corn-belt archaeologists. These excavations have revealed evidence of a powerful society, including complex celestial timepieces, the remains of feasts big enough to feed thousands, and disturbing signs of large-scale human sacrifice.

Drawing on these pioneering digs and a wealth of analysis by historians and archaeologists, Pauketat provides a comprehensive picture of what's been discovered about Cahokia and how these findings have challenged our perceptions of Native Americans. *Cahokia* is a lively read and a compelling narrative of prehistoric America.
