Danger in Space: Surviving the Apollo 13 Disaster (American Space Missionsastronauts, Exploration, and Discover) Henry M Holden

Soaring through space at 25,000 per hour, APOLLO 13 was on course for the Moon. Suddenly, the three astronauts aboard the spacecraft heard a loud bang. A strong vibration rumbled through the crew cabin.

There had been an explosion in the oxygen tank! More than 200,000 miles from Earth, APOLLO 13 was in grave danger. The astronauts had planned to land on the Moon. But now they had a new mission: survival.

Author Henry M. Holden delivers the gripping details of how three astronauts, with the help of NASA scientists on Earth, turned a story of disaster into one of triumph.

From reader reviews:

Nancy Page:

Do you have favorite book? In case you have, what is your favorite's book? Publication is very important thing for us to know everything in the world. Each reserve has different aim or maybe goal; it means that publication has different type. Some people experience enjoy to spend their a chance to read a book. They may be reading whatever they have because their hobby is definitely reading a book. What about the person who don't like reading a book? Sometime, individual feel need book if they found difficult problem or even exercise. Well, probably you will require this Danger in Space: Surviving the Apollo 13 Disaster (American Space Missionsastronauts, Exploration, and Discover).

Sharon McMichael:

Nowadays reading books become more and more than want or need but also become a life style. This reading habit give you lot of advantages. Advantages you got of course the knowledge the actual information inside the book which improve your knowledge and information. The details you get based on what kind of guide you read, if you want attract knowledge just go with knowledge books but if you want feel happy read one having theme for entertaining like comic or novel. The Danger in Space: Surviving the Apollo 13 Disaster (American Space Missionsastronauts, Exploration, and Discover) is kind of guide which is giving the reader unpredictable experience.

Willard Edwards:

Reading a book to be new life style in this yr; every people loves to study a book. When you learn a book you can get a large amount of benefit. When you read publications, you can improve your knowledge, because book has a lot of information upon it. The information that you will get depend on what types of book that you have read. If you want to get information about your examine, you can read education books, but if you act like you want to entertain yourself look for a fiction books, this kind of us novel, comics, as well as soon. The Danger in Space: Surviving the Apollo 13 Disaster (American Space Missionsastronauts, Exploration, and Discover) provide you with a new experience in reading through a book.

John Moreno:

As a pupil exactly feel bored to be able to reading. If their teacher inquired them to go to the library in order to make summary for some book, they are complained. Just minor students that has reading's spirit or real their pastime. They just do what the teacher want, like asked to go to the library. They go to at this time there but nothing reading really. Any students feel that examining is not important, boring as well as can't see colorful images on there. Yeah, it is to be complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. So , this Danger in Space: Surviving the Apollo 13 Disaster (American Space Missionsastronauts, Exploration, and Discover) can make you sense more interested to read.
