Researching Entrepreneurship: 5 (International Studies in Entrepreneurship) Per Davidsson

Entrepreneurship is a phenomenon of tremendous societal importance. It is also an elusive phenomenon, and researching entrepreneurship is therefore fun, fascinating and frustrating at times. In *Researching Entrepreneurship*, Per Davidsson, one of the most highly recognized entrepreneurship scholars shares in a personal and readable way his rich experience and ideas on how entrepreneurship can or should be researched. After a comprehensive treatment of entrepreneurship as societal phenomenon and scholarly domain, the core chapters of the book discuss design, sampling, operationalization and analysis issues on several levels of analysis: individual, venture, firm, industry, region and nation. The book is targeted at doctoral students and other relative newcomers to the field of entrepreneurship research. However, taking a fresh, reflective perspective and looking beyond research conventions, it should provide potential for inspiration and food for thought also for experienced entrepreneurship researchers.
