The Latin American Casebook: Courts, Constitutions, and Rights

Traditionally relegated because of political pressure and public expectations, courts in Latin America are increasingly asserting a stronger role in public and political discussions. This casebook takes account of this phenomenon, by offering a rigorous and up-to-date discussion of constitutional adjudication in Latin America in recent decades. Bringing to the forefront the development of constitutional law by Latin American courts in various subject matters, the volume aims to highlight a host of creative arguments and solutions that judges in the region have offered.

The authors review and discuss innovative case law in light of the countries' social, political and legal context. Each chapter is devoted to a discussion of a particular area of judicial review, from freedom of expression to social and economic rights, from the internalization of human rights law to judicial checks on the economy, from gender and reproductive rights to transitional justice. The book thus provides a very useful tool to scholars, students and litigants alike.
