Creating stories allows individuals and their families to see and honor their connection to older and younger generations. The authors believe that through such writing, individuals not only communicate the meaning and spirit of their lives to their loved ones but also gain perspective on the larger world. This beautifully designed and illustrated guide escorts readers through the process of writing down their stories and illustrating them with photographs, memorabilia, and other images, including digital format. By offering readers questions to draw out events and memories, the book emphasizes a person's full life, in all of its highs and lows, magic moments, and simple pleasures. The book's supportive approach will inspire even first-time writers to forge a collection of stories to share and pass on to the important people in their lives.
