Can a man and a woman be platonic friends without someone wanting them dead? Cameron and Taylor share a rare bond that very few people can appreciate. They're best-friends. Their interactions lead onlookers to assume that there's something way deeper than "friendship" happening between the two of them. So much so that it's driving both Cameron's & Taylor's romantic interests crazy. Literally. When an associate is hit during a botched assassination attempt on Cameron's life, he has little time to figure out who's behind the madness before another attempt is made. Will he be able to get to them before they get to him or will Taylor's black dress be forever stained in mourning her beloved friend? "A rapid release of emotions resembles an atomic bomb: explosive and deadly, destroying everything around it when those emotions are released. When the platonic meets the atomic it becomes... Platonic."
