"As New York, capital of the twentieth century, recedes from memory, it becomes more like Paris; we flock to it to pay tribute to the great things that once happened there. New York is now a miasma of apocryphal myths feasting on its own corpse. On these pages, Martinez spins hazy rumor and wilting gossip into blistering contemporary fiction, holding up Warhol's mirror to the myth of Warhol himself. The result is a delicious celebration of simulacra where, like New York New York itself, nothing is true, but everything is permitted."—Kenneth Goldsmith

John is a poet. Only John almost never writes poems, because he is also unemployed. He lives with four friends, and they squat in a loft in New York New York, a fantastical city that resembles the Big Apple, but also any other city where artists live. They throw fabulous parties and practice group sodomy. That is, until John meets Andy.

Andy is an artist. Well, he is if you define art as something that people don't want but the artist wants to give them anyway. A gallery owner with Tourette syndrome "discovers" his work and Andy is on his way to being famous. John, on the other hand, is hard at work at being unemployed, drinking all night and sleeping all day—which leaves him very little time for writing poems. Andy, watching him sleep, has an intriguing idea for a piece of art that he thinks will allow John to get paid for what he does best.

Using the story of Andy Warhol and John Giorno and their film *Sleep* as a starting point, *The Sleepworker* reads like a Warhol film on fast-forward.

Cyrille Martinez is a poet and novelist living in Paris. This is his English debut.
