Conflict of Laws in Intellectual Property: The CLIP Principles and Commentary

European Max Planck Group on Conflict of Laws in Intellectual Property

Conflict of Laws in Intellectual Property: The CLIP Principles and Commentary European Max Planck Group on Conflict of Laws in Intellectual Property

The Conflict of Laws in Intellectual Property (CLIP) Principles address issues of private law for disputes involving intellectual property rights. They were produced by a Max Planck Institute research project, in which the authors of this work were heavily involved. The Principles are intended to provide a model European framework to respond to the increasing need for guidance on the applicable law. They represent a significant body of work which will help to inform developing practice on applicable law and conflict throughout the field.

This new work presents the Principles, alongside article-by-article commentary and notes, which analyse thoroughly the context of the rule within the Principles, as well as within the existing legal solutions at the national, European and international level. It also explores the policy considerations underlying the rule, enabling a better understanding of why the Principles adopt the solutions laid out in the rules. Useful references are provided to the relevant legal provisions and cases dealing with the respective issues of intellectual property and private international law.
