From 1943 until his death in December 1945, Austrian sociologist Otto Neurath worked tirelessly on numerous versions of an innovative visual autobiography entitled *From Hieroglyphics to Isotype*. Now, sixty-five years later, comes the first publication of his full text, carefully edited from the original manuscripts. This edition highlights the important role visual material played in Neurath's life—from his earliest years to his professional work on the Isotype picture language. This engaging and informal account gives a rich picture of Central-European culture around the turn of the twentieth century, seen through the eyes of Neurath's insatiable intelligence, as well as a detailed exposition of the technique of Isotype. *From Hieroglyphics to Isotype* includes an appendix showing examples from Neurath's extensive collection of visual material.
