Winemaking is as old as civilization itself and wine has always been more than just a drink. For thousands of years, from its origins in ancient Mesopotamia to its current status as a vast global industry, the history of wine has been directly related to major social, cultural, religious and economic changes. This fascinating and entertaining book takes a look at 100 bottles that mark a significant change in the evolution of wine and winemaking and captures the innovations and discoveries that have had the biggest impact on the history of 'bottled poetry'.
