## Head First Physics: A learner's companion to mechanics and practical physics (AP Physics B - Advanced Placement) Heather Lang

Wouldn't it be great if there were a physics book that showed you how things work instead of telling you how? Finally, with *Head First Physics*, there is. This comprehensive book takes the stress out of learning mechanics and practical physics by providing a fun and engaging experience, especially for students who "just don't get it."

*Head First Physics* offers a format that's rich in visuals and full of activities, including pictures, illustrations, puzzles, stories, and quizzes -- a mixed-media style proven to stimulate learning and retention. One look will convince you: This isn't mere theory, this is physics brought to life through real-world scenarios, simple experiments, and hypothetical projects. *Head First Physics* is perfect for anyone who's intrigued by how things work in the natural world.

You'll quickly discover that physics isn't a dry subject. It's all about the world we live in, encompassing everything from falling objects and speeding cars, to conservation of energy and gravity and weightlessness, and orbital behavior. This book:

- Helps you *think* like a physicist so you can understand why things really work the way they do
- Gives you relevant examples so you can fully grasp the principles before moving on to more complex concepts
- Designed to be used as a supplement study guide for the College Board's Advanced Placement Physics B Exam
- Introduces principles for the purpose of solving real-world problems, not memorization
- Teaches you how to measure, observe, calculate -- and yes -- how to do the math
- Covers scientific notation, SI units, vectors, motion, momentum conservation, Newton's Laws, energy conservation, weight and mass, gravitation and orbits, circular motion and simple harmonic motion, and much more

If "Myth Busters" and other TV programs make you curious about our physical world -- or if you're a student forced to take a physics course -- now you can pursue the subject without the dread of boredom or the fear that it will be over your head. *Head First Physics* comes to rescue with an innovative, engaging, and inspirational way to learn physics!

### **From reader reviews:**

#### **Clarine Davidson:**

The ability that you get from Head First Physics: A learner's companion to mechanics and practical physics (AP Physics B - Advanced Placement) is the more deep you looking the information that hide into the words the more you get interested in reading it. It doesn't mean that this book is hard to be aware of but Head First Physics: A learner's companion to mechanics and practical physics (AP Physics B - Advanced Placement) giving you thrill feeling of reading. The writer conveys their point in certain way that can be understood by anyone who read this because the author of this e-book is well-known enough. This particular book also makes your own personal vocabulary increase well. That makes it easy to understand then can go along with you, both in printed or e-book style are available. We recommend you for having this specific Head First Physics: A learner's companion to mechanics and practical physics (AP Physics B - Advanced Placement) instantly.

#### **Minnie Rivera:**

Are you kind of busy person, only have 10 or perhaps 15 minute in your time to upgrading your mind ability or thinking skill actually analytical thinking? Then you are experiencing problem with the book when compared with can satisfy your short period of time to read it because pretty much everything time you only find reserve that need more time to be learn. Head First Physics: A learner's companion to mechanics and practical physics (AP Physics B - Advanced Placement) can be your answer as it can be read by an individual who have those short time problems.

#### **Beverly Thomas:**

As a university student exactly feel bored to reading. If their teacher asked them to go to the library as well as to make summary for some reserve, they are complained. Just very little students that has reading's heart or real their leisure activity. They just do what the professor want, like asked to go to the library. They go to there but nothing reading critically. Any students feel that reading is not important, boring and also can't see colorful pics on there. Yeah, it is to become complicated. Book is very important in your case. As we know that on this age, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore , this Head First Physics: A learner's companion to mechanics and practical physics (AP Physics B - Advanced Placement) can make you experience more interested to read.

#### **Catherine Gober:**

What is your hobby? Have you heard which question when you got pupils? We believe that that problem was given by teacher with their students. Many kinds of hobby, Every individual has different hobby. And also you know that little person just like reading or as studying become their hobby. You have to know that reading is very important as well as book as to be the factor. Book is important thing to incorporate you knowledge, except your personal teacher or lecturer. You find good news or update in relation to something

by book. Amount types of books that can you choose to use be your object. One of them is this Head First Physics: A learner's companion to mechanics and practical physics (AP Physics B - Advanced Placement).
