Erich Fromm

May Man Prevail?: An Inquiry into the Facts and Fictions of Foreign Policy Erich Fromm
An engulfing study of the turmoil and uncertainty that pervaded the early 1960s, when the world was preoccupied with the threat of a nuclear holocaust

The early 1960s were a time of existential unease across the world. The constant threat of a nuclear bomb—and of mutually assured destruction—led to a palpable sense that nuclear holocaust could occur any day. It was in this Cold War environment that social psychologist Erich Fromm wrote *May Man Prevail?*

By analyzing the enemy stereotypes and mutual projections that were prevalent in the foreign policies of the Soviet Union and the United States, Fromm pointed to the anxieties on both sides and illustrates how paranoid thinking in the political realm can be extremely dangerous. With his excellent psychological analysis of the mindsets of the major players of the time, Fromm helped us overcome the Cold War's ideologies and fictions.

This ebook features an illustrated biography of Erich Fromm including rare images and never-before-seen documents from the author's estate.
